Emergency Medical Services – Air Ambulance Technology GmbH

1 Patient Kit-\$263,878.00 €

2 Patient Kit-\$342,440.00 €

1 Patient Kit with Stryker Stretcher-\$276,186.00 €

Air Ambulance Technology GmbH designs and manufactures interiors for, and with its customers. The medical carrier of the rotorcraft can be designed with either new medical devices or already owned medical devices. The interior can be transformed from a 1 patient to a 2 patient configuration within minutes

The installation time for the 2 patient full EMS configuration for the rotorcraft is approximately 20 minutes. There are three possible configurations. 1 patient, 2 patient and SAR. Not only are Air Ambulance Technology GmbH's aircraft interiors exceptionally quick to install and remove, the modular system also allows the operator to change between a full EMS and a Search and Rescue mission within a very short time.
